

Join the PA Ag Republicans

I want to be a member of the PA Ag Republicans because:

- I support the principles of the Republican Party.
- I know that the Republican Party best represents the Farmers, Pennsylvania's true working class.
- I am a Republican involved or having an interest with PA's leading industry, Agricultural.
- I recognize that Republicans prefer that markets set wages rather than unions and big government.
- I desire to see the match of old values and new ideas.
- I believe that free-enterprise capitalism is the best way to secure economic justice in the State of Pennsylvania.
