The Pennsylvania Ag Republicans are dedicated to supporting those Republican public leaders protecting and growing our agriculture community. Our statewide organization is working toward a strong and viable farm economy, promoting your issues through responsible leadership and sharing the industry’s significant role in Pennsylvania’s economy.

Pennsylvania Agriculture’s Contribution:

- **\$67 billion** in total economic impact
- More than **63,000 farms** on **7.8 million acres of farmland**
- 97% of farms are **family-owned** operations...
- ...with 88% of these family farms small businesses.
- **One-in-seven jobs** are related to agriculture, with nearly **500,000 employed** in agricultural and supported industries in Pennsylvania.

Pennsylvania farms are feeding communities, employing generations, and preserving our agricultural heritage—and to keep our community thriving, the Pennsylvania Ag Republicans recognize the need for committed, Republican leaders in all offices, from county commissions to the General Assembly, to Congress and the White House.
