

Resolution Against Sunday Hunting

WHEREAS, the PA Ag Republicans oppose Sunday Hunting.

WHEREAS, one day a week, families should be able to enjoy the woodlands without worry of hunters; recreational family time is important to our farm family values.

WHEREAS, Sunday is the Lord's Day of a day of rest, not only for humans, but for animals also.

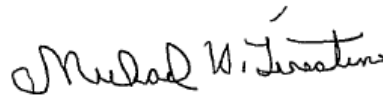

WHEREAS, as landowners, we support hunting, but also believe there should be one day a week we can enjoy our land without others on it.

WHEREAS, if Sunday hunting becomes law, most landowners will post their land, all seven (7) days; resulting in fewer acres open to hunters.

WHEREAS, landowners believe others should be able to enjoy the land God created. However, should Sunday hunting become law and more landowners post their there, we believe there would be an increased number of hunters, in a smaller area, creating an unsafe environment not only for hunters but for those enjoying recreational time on the weekends.

WE RESOLVE, for our state legislators to vote "NO" to Sunday hunting.
