

Whereas, President Donald J. Trump is fighting for the American farmer. Fulfilling a campaign promise, USMCA (United States Mexico Canada Trade Agreement) massively boost exports for farmers, ranchers, growers, and agricultural producers. This new agreement is no longer one sided, which for the US was more like foreign aid than foreign trade. Due to this landmark agreement, China will now be purchasing \$40 to \$50 billion of American agricultural products every single year, tripling our agricultural exports to China.

Whereas, the United States economy is booming under President Donald J Trump. The stock market hit an all-time high allowing citizen to build wealth and a secure future.

Whereas, US job growth has increased as jobs are created under President Trump's economy as well as oversea jobs were brought back to our country. Unemployment rate is now at 3.5%, the lowest it has been in 51 years. The Trump administration promotes job training programs, and bringing businesses and educators together to ensure high-quality classroom instruction and on-the-job training.

Whereas, our nation was founded by One Nation Under God. President Donald J Trump has given the churches their voices back. Faith-based groups will not be forced to pay for services under Obamacare that do not follow biblical principal. Students will be allowed to pray and hold bible studies on school campuses. People of faith will not be bullied or targeted.

Whereas, our country was founded upon **life**, liberty, and the pursuit of happiness. Only God our Creator, can take a life. Life begins at conception. President Donald J Trump is in the fight to stop babies from being slaughtered and others from being euthanized.

Whereas, it is important to secure our borders and stop illegal immigration. President Donald J. Trump has championed the fight against illegal immigration since taking his first day in office. Illegal crossing numbers are down and we are building a wall between the United States and Mexico.

Whereas, because of tax cuts, trade reforms, and regulatory reductions, America now has the hottest economy anywhere on Earth.

Whereas, in less than four years since taking office, President Trump cut burdensome regulations. He gave an order that for every one new regulation, two old regulations must be eliminated. As a result, the average American household will save \$3,100 dollars a year, just on regulation cuts and sensible regulation.

Therefore, the PA Ag Republicans endorse Donald J. Trump as the candidate on the republican ballot. President Trump as made America great again and we need his continued leadership which is putting America first and striving to be the country back to the principles it was founded upon.

Mike Firestine, Chair
George Greig, Vice Chair
